DECLARATION OF PERPETUAL LAND USE RESTRICTIONS

For Property Owned by: Forsyth County

The real property which is the subject of this Declaration of Perpetual Land Use Restrictions (“Declaration”) is contaminated with hazardous substances, and is an INACTIVE HAZARDOUS SUBSTANCE OR WASTE DISPOSAL SITE (“the Site”) as defined by North Carolina's Inactive Hazardous Sites Response Act of 1987, which consists of Section 130A-310 through Section 130A-310.19 of the North Carolina General Statutes (“N.C.G.S.”). This Declaration is part of a Remedial Action Plan for the Site that has been approved by the Secretary of the North Carolina Department of Environmental Quality, Division of Waste Management, Superfund Section or its successor in function, or his/her delegate, as authorized by N.C.G.S. Section 130A-310.3(f). The North Carolina Department of Environmental Quality shall hereafter be referred to as “DEQ”. Hereafter, the Division of Waste Management, Superfund Section shall be referred to as “Superfund Section”.

Forsyth County, Winston-Salem, North Carolina is the owner in fee simple of the property (“the Property”), which is located at the end of Airport Road in the County of Forsyth, City of Winston-Salem, State of North Carolina, and is the real property legally described in Deed Book 875, Page 103 in the Office of the Register of Deeds for Forsyth County. The Property is also shown on a Notice of Inactive Hazardous Substance or Waste Disposal Site, in the form of a survey plat (“Notice Plat”), which has been recorded prior to the recordation of this Declaration in Map Book ____ Page ____ in the Office of the Register of Deeds for Forsyth County.

For the purpose of protecting public health and the environment, Forsyth County hereby declares that all of the Property shall be held, sold and conveyed subject to the following perpetual land use restrictions, which shall run with the land; shall be binding on all parties having any right, title or interest in the Property or any part thereof, their heirs, successors and assigns; and shall, as provided in N.C.G.S. Section 130A-310.3(f), be enforceable without regard to lack of privity of estate or contract, lack of benefit to particular land, or lack of any property interest in particular land. These restrictions shall continue in perpetuity and cannot be amended or canceled unless and until the Forsyth County Register of Deeds receives and records the written concurrence of the Secretary of DEQ or its successor in function, or his/her delegate. If

any provision of this Declaration is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

PERPETUAL LAND USE RESTRICTIONS

The following restrictions shall apply only to the Waste Disposal Area of the Property:

1. Activities necessary to maintain the security and structural integrity of the landfill at the Property shown as Waste Disposal Area on the Notice Plat are permitted, with prior written approval by the Superfund Section or its successor in function. All other uses at the Property are prohibited, except as approved in writing by the Superfund Section or its successor function.
2. Soil, landscaping, and contours at the Waste Disposal Area may not be disturbed without the approval of the Superfund Section or its successor in function, except for mowing and pruning of existing above-ground vegetation.
3. No surface or subsurface native or fill earthen materials may be removed from the Waste Disposal Area without written permission of the Superfund Section or its successor in function.
4. Unless approved by the Superfund Section or its successor in function, the landfill area shown as Waste Disposal Area on the Notice Plat shall not be paved with asphalt, concrete or other impervious materials.
5. No new trees or other vegetation except grass and shrubs not to exceed three feet in height may be planted on the Waste Disposal Area.
6. All fencing shall be inspected at least annually and maintained in the specific location depicted on the Notice Plat, in original or like condition, and in a manner that secures the Waste Disposal Area.

The following restrictions shall apply to both the Waste Disposal Area and the entire Property:

1. Surface water shall not be used for any purpose.
2. Underground water (groundwater) shall not be used for any purpose.
3. The installation of groundwater wells or other devices for access to groundwater for any purpose other than monitoring groundwater quality is prohibited without prior written approval by the Superfund Section or its successor in function.
4. No activities that would cause the exposure, removal, or use of groundwater, including but not limited to, installation of water supply wells, fountains, ponds, lakes, swimming pools or other features that use groundwater, or construction or excavation activities that would encounter or expose groundwater may occur on the Property without prior approval of Superfund Section or its successor in function.

5. No water supply wells may be installed or used at the property and groundwater may not be otherwise accessed or used at the Property for any purpose.
6. No above- or below-ground construction or improvements (including, but not limited to, utilities, roads, sidewalks, and landscaping) are allowed within 200 feet of the Waste Disposal Area without prior written approval by the Superfund Section or its successor in function.

Each person who owns any portion of the Property shall submit a letter report, containing the notarized signature of the owner, in January of each year on or before January 31st, to the Superfund Section or its successor in function, confirming the following:

1. This Declaration is still recorded in the Office of the Forsyth County Register of Deeds.
2. Activities and conditions at the Property remain in compliance with the land use restrictions herein.
3. The Property has not been subdivided since the last letter report submitted to the Superfund Section.

No person conducting environmental assessment or remediation at the Site or involved in determining compliance with applicable land use restrictions at the Property, at the direction of, or pursuant to a permit or order issued by the Superfund Section or its successor in function may be denied access to the Property for the purpose of conducting such activities.

Each person who owns any portion of the Property shall cause the instrument of any sale, lease, grant, or other transfer of any interest in the Property to include a provision expressly requiring the lessee, grantee, or transferee to comply with this Declaration. The failure to include such provision shall not affect the validity or applicability of any land use restriction in this Declaration.

REPRESENTATIONS AND WARRANTIES

The owner of the Property hereby represents and warrants that the owner of the Property is the sole owner of the Property holding fee simple title to the Property free and clear;

that the owner of the Property has the power and authority to enter into this Declaration, to grant the rights and interests herein provided and to carry out all obligations hereunder; and

that this Declaration will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which the owner of the Property is a party or by which the owner of the Property may be bound or affected.

ENFORCEMENT

Adherence to the above land use restrictions is necessary to protect public health and the environment. The restrictions are an integral part of the remedy for the contamination at the Site

and shall be enforceable without regard to lack of privity of estate or contract, lack of benefit to particular land, or lack of any property interest in particular land. These land use restrictions shall be enforced by any owner, operator, or other party responsible for any part of the Site. The above land use restrictions may also be enforced by the Superfund Section through the remedies provided in N.C.G.S. Chapter 130A, Article 1, Part 2 or by means of a civil action, and may also be enforced by any unit of local government having jurisdiction over any part of the Site. Any attempt to cancel this Declaration without the approval of the Superfund Section or its successor in function shall constitute noncompliance with the Remedial Action Plan approved by the Superfund Section for the Site and shall be subject to enforcement by the Superfund Section to the full extent of the law. Failure by any party required or authorized to enforce any of the above restrictions shall in no event be deemed a waiver of the right to do so thereafter as to the same violation or as to one occurring prior or subsequent thereto.

FUTURE SALES, LEASES, CONVEYANCES AND TRANSFERS

When any portion of the Property is sold, leased, conveyed or transferred, pursuant to N.C.G.S. Section 130A-310.8(e) the deed or other instrument of transfer shall contain in the description section, in no smaller type than that used in the body of the deed or instrument, a statement that the real property being sold, leased, conveyed, or transferred has been used as a hazardous substance or waste disposal site and a reference by book and page to the recordation of the Notice of Inactive Hazardous Substance or Waste Disposal Site referenced in this Declaration.
